OPEN HOUSE

i n v i t a t i o n

AUGUST • 23-25 • 2007

**CDS headquarters
1930 52nd ave.
Lachine, Quebec
H8T-2Y3 Canada**

***Celebrating CDS's 10-year
anniversary and facility expansion.***

As an OEM, we believe that one cannot get a better appreciation for our products than by visiting our facilities where we design, manufacture, and test world-class machinery and integrated systems for the polymer extruding industries. As we mark our 10th anniversary this year and finalize our expansion wing at our Montreal facility, we will be giving extrusion processors along with our affiliated partners, suppliers, and the media industry that opportunity at our second Open House.

We hope that you will take this opportunity to learn more about CDS's products, services, and capabilities and return with a renewed appreciation of who we are and how we can better serve your needs.

OPENING HOURS: 08:00 - 18:30

What can I expect at CDS's Open House?

- **Company, operations, and product overview**
- **Q&A session with Sales and Engineering personnel**
- **Lunch, courtesy of CDS**
- **Tour of CDS's rubber-molding facilities**

Building on yesterday's successes — and tomorrow's challenges.

In 1997, shortly after extrusion equipment manufacturer Metaplast was purchased by one of its key competitors, four ex-employees of the acquired company incorporated CDS, a.k.a Custom Downstream Systems.

Built on the premise of delivering high-performance products with a focus on quality, customization, and personalized after-sales service, CDS quickly established itself as a leading OEM and exporter of downstream extrusion machinery for processors of polymer-based pipes, profiles, and tubes.

For more information about CDS, visit: www.cdsmachines.com

Making room to better serve your needs.

CDS's 30,000 square-foot wing is expected to be completed by the early summer of 2007.

CDS's new 30,000 square-foot wing at its Montreal facility will mark the company's 5th expansion initiative during its 10-year history. The wing will host additional manufacturing equipment, a complete testing facility, and a showroom.

CDS is conveniently located 5 minutes away from the international airport!

Meet the friendly faces behind the machines.

Review your project with an Account Representative, take a plant tour with our Foreman, or discuss your latest application with a certified Sales Engineer. Whoever it might be, a qualified CDS employee will be available to answer any of your questions.

My Account Manager/Sales Representative at CDS

Name of additional invitee(s) at your company

I am interested in attending and would like to apply for the VIP package. Have a representative call me to confirm.

I will not be able to attend your Open House *(please specify why)*

- I am not in the market for your type of products.
- I will not be able to attend due to conflicting priorities.
- I no longer or do not extrude applications that would require downstream equipment.
- Other

I would like to visit CDS but on a different date. Have a representative call me to schedule.
